

S1 Phone Booth Technical Details

Dimensions	W3.6' x D3.6' x H7.4'
Weight	816 lbs

	Description	Tech Details
Walls - Exterior	Dual-level walls made from birch plywood and EchoFree panel with recycled acoustic foam backing. Laminated exterior wall with more than 30 color options.	Rw 49dB STC 49 NRC .95 Class A Acoustic absorption
Exterior Laminate	High-pressure laminate.	
Substrate Materials	Combination of birch plywood and MDF board.	
Roof	Dual-level walls made from birch plywood and EchoFree panel with recycled acoustic foam backing. Cutouts for ventilation, LED light, and motion sensor.	Rw 45dB STC 45 NRC .80 Class A Acoustic absorption
Door	Right- or left-handed laminated acoustic Sound Control safety glass. Frame in white, black, or natural aluminum.	Rw 37dB STC 37 NRC .10
Glass	.51" laminated acoustic Sound Control glass.	Rw 40dB STC 40 NRC .10
Walls - Interior	EchoFree felt with acoustic foam backing in light grey, dark grey, or black.	Class A Acoustic absorption
Floor	100% PP pile content broadloom carpet matching interior color. EN 1307.	
Table	Painted steel in white or black. Height: 41".	Magnetic back plate
Lighting & Motion sensor	Low power consumption.	Motion-activated LED lighting Adjustable time delay Adjustable brightness
Ventilation	Energy-efficient air circulation system.	Air circulation 28 L/S Dual 1500 RPM Advanced Acoustic Optimization fans
Power	Fully integrated power outlet in table back plate.	x1 110-240V (10A) x1 USB-C, x1 USB-A
Casters (optional)	For easy relocation.	Casters - retractable
Leveling	For leveling on uneven surfaces.	Leveling access points inside booth
