

Wall Screen

# Static

See both sides

A partition with open detailing, Static lets you see space from both sides. With a variety of patterns, colors, and mounting options, form and function come together to offer new perspectives.

# How To Specify

## Key Information

Static can elevate your space in a variety of ways. Consider these questions as you design your layout.

If shop drawings are required for your project, please follow steps 1 - 4.

## Fast Track

If you're looking to expedite your project, this product is available as Turf Fast Track!

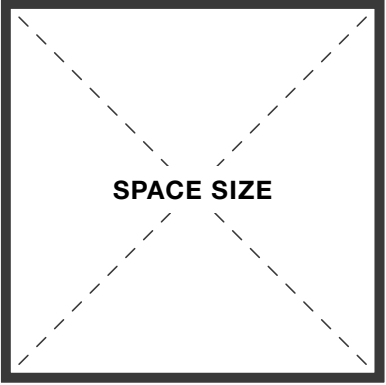

Using Fast Track, our standard lead time for shop drawings is eliminated allowing the project to move directly into production.

Please note, installation and seaming drawings are not included in this process.

Turf recommends 10-15% additional panels to cover overage / attic stock.

Custom patterns and Standoff connection are not available for Fast Track.

Patterns

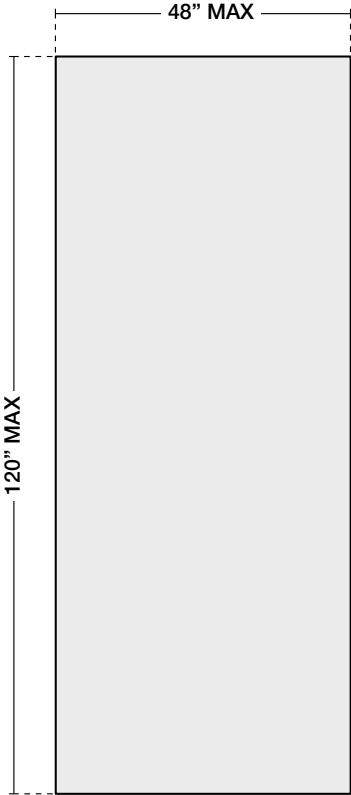

Design

Static offers a number of patterns that can be used to elevate your space.

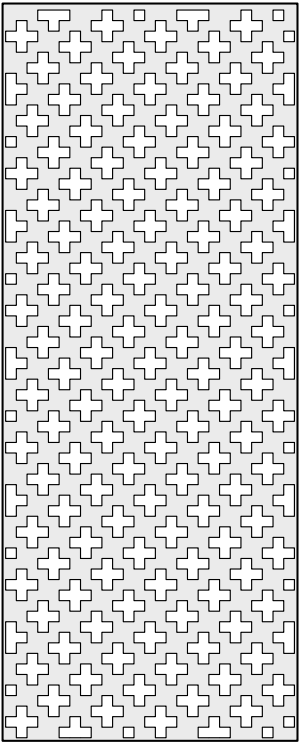

Please note, the pattern cutouts will always be the same size. Patterns will be modified to fit the panel size ordered.

Custom

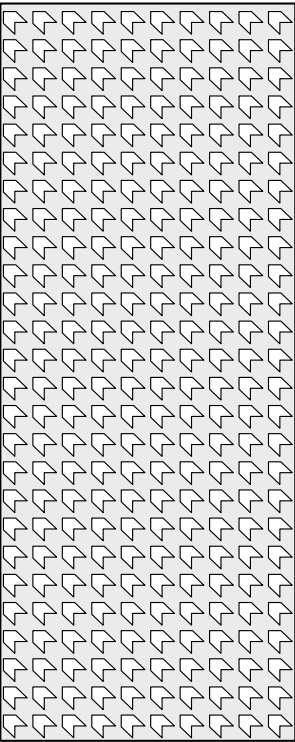

Looking for something completely unique? Reach out to our team and we can help create a custom pattern.

Connections - Side Mount

**Description**

Turf's Side Mount connection anchors Static panels to the ceiling and floor with grippers. Cable attachments link Static together on either side of each panel.

**Example Shown**

The layout shown uses Static pattern F6, all pattern types are available with the Side Mount connection.

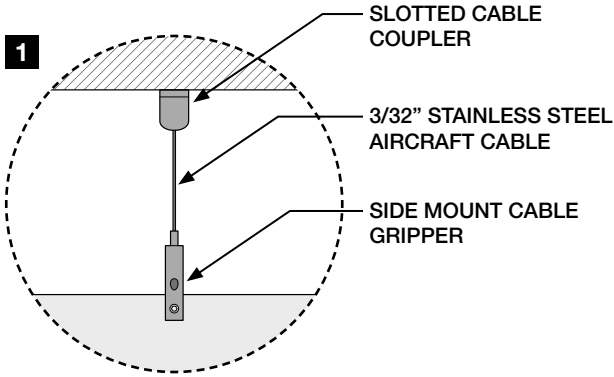

ALL DIMENSIONS NOMINAL UNLESS NOTED OTHERWISE

# Connections - Top Mount

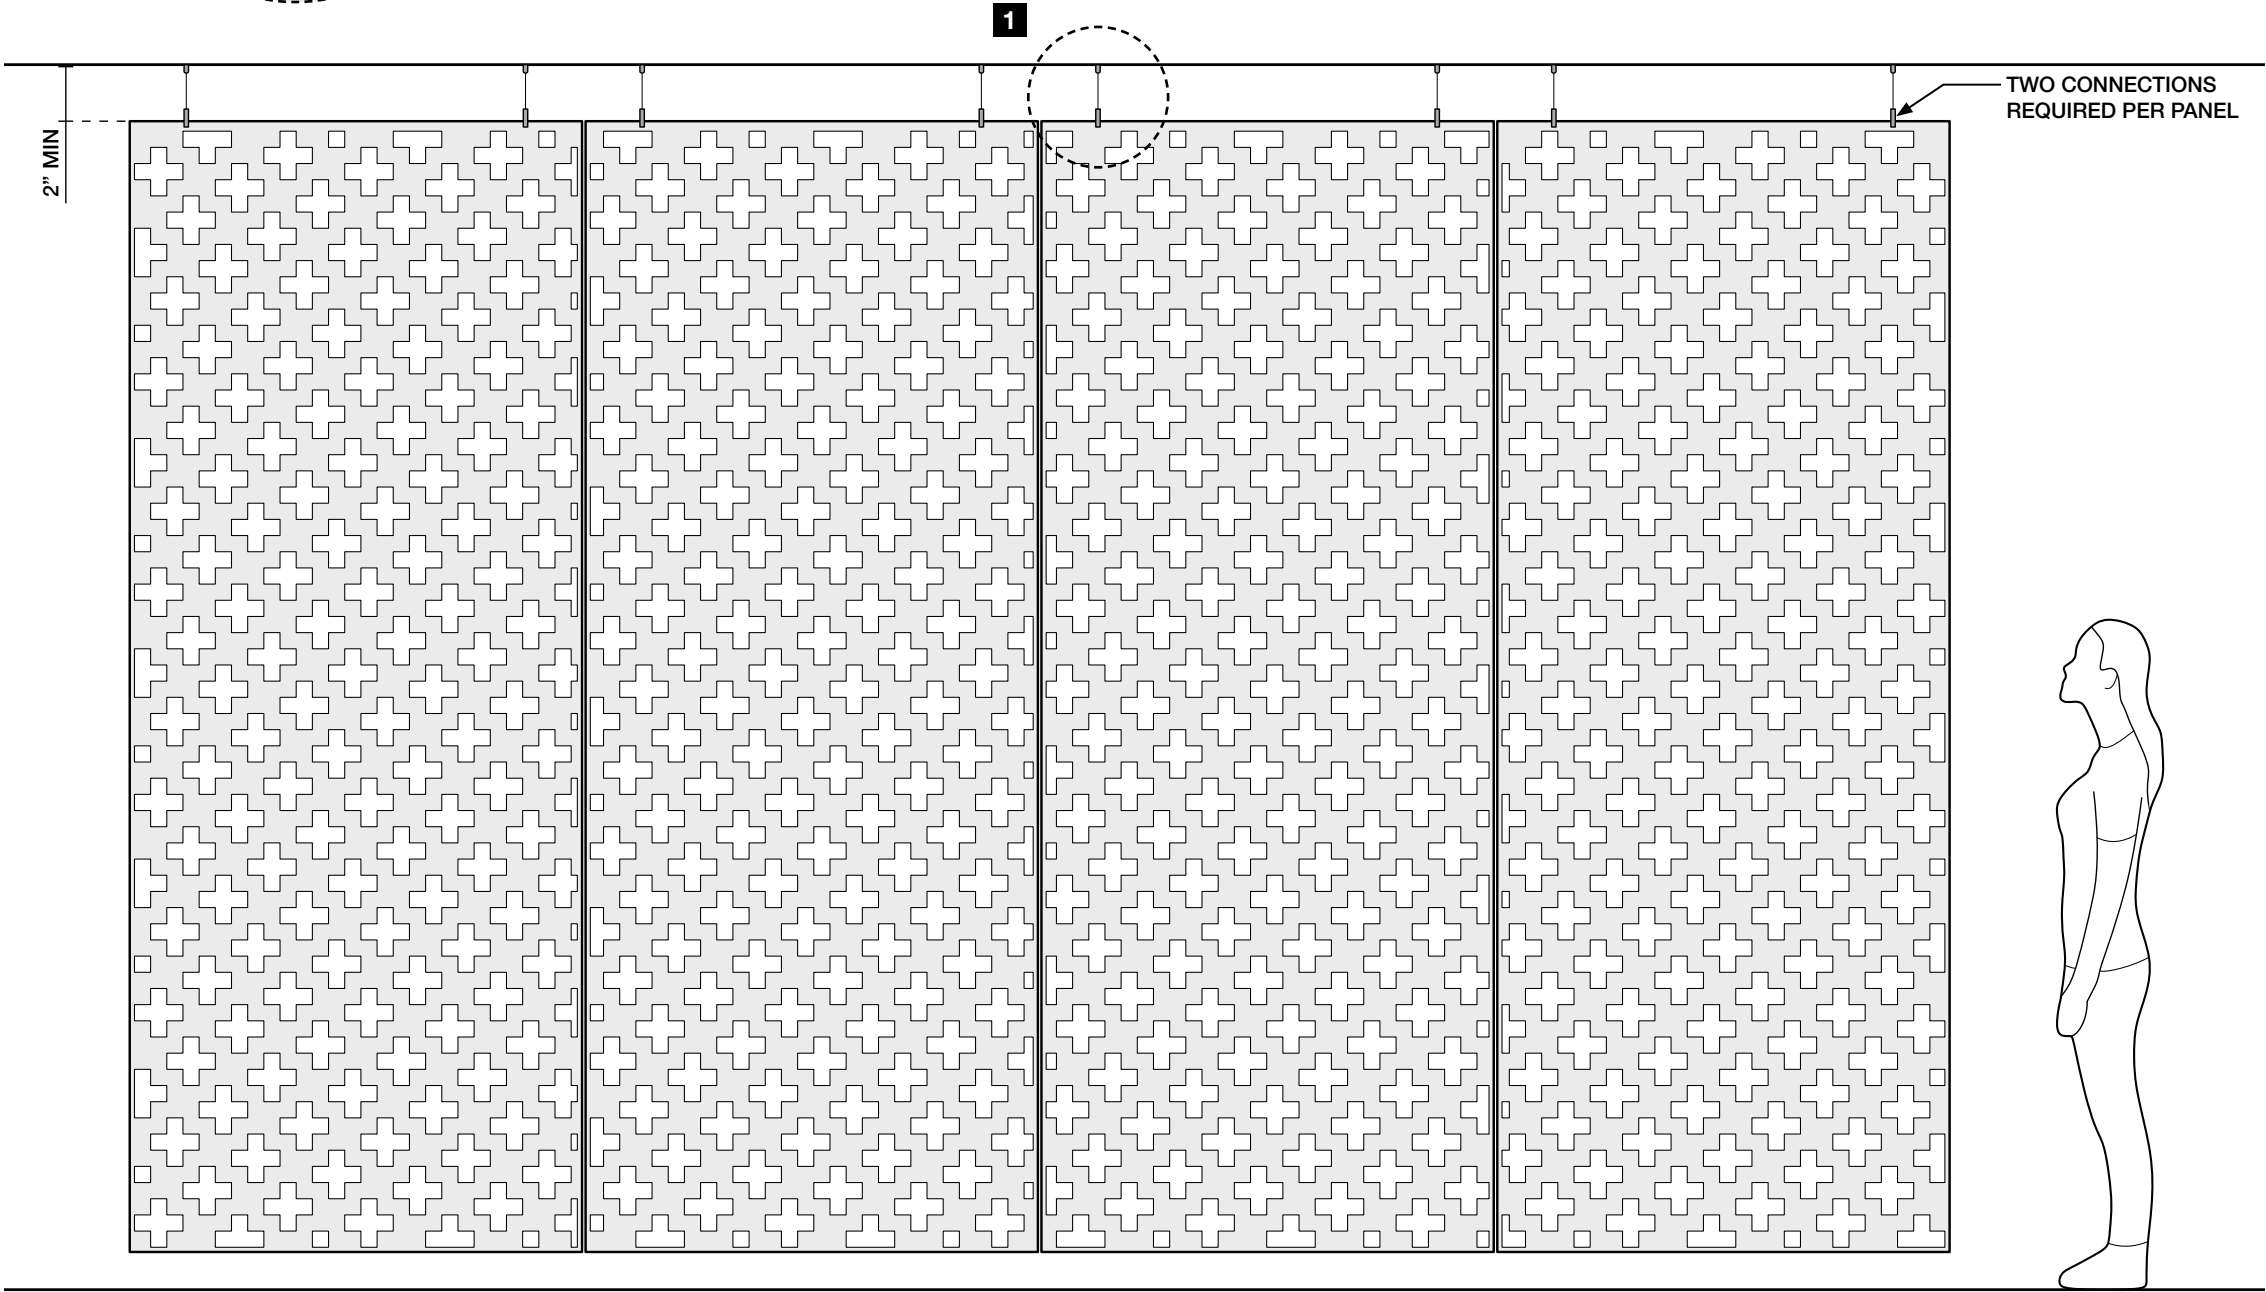

**Description**

Turf's Top Mount connection anchors Static panels to the ceiling with a slotted cable coupler. Aircraft cables connect to side mount grippers allowing you to hang the panels at the desired height.

**Example Shown**

The layout shown uses Static pattern F2, all pattern types are available with the Top Mount connection.

ALL DIMENSIONS NOMINAL UNLESS NOTED OTHERWISE

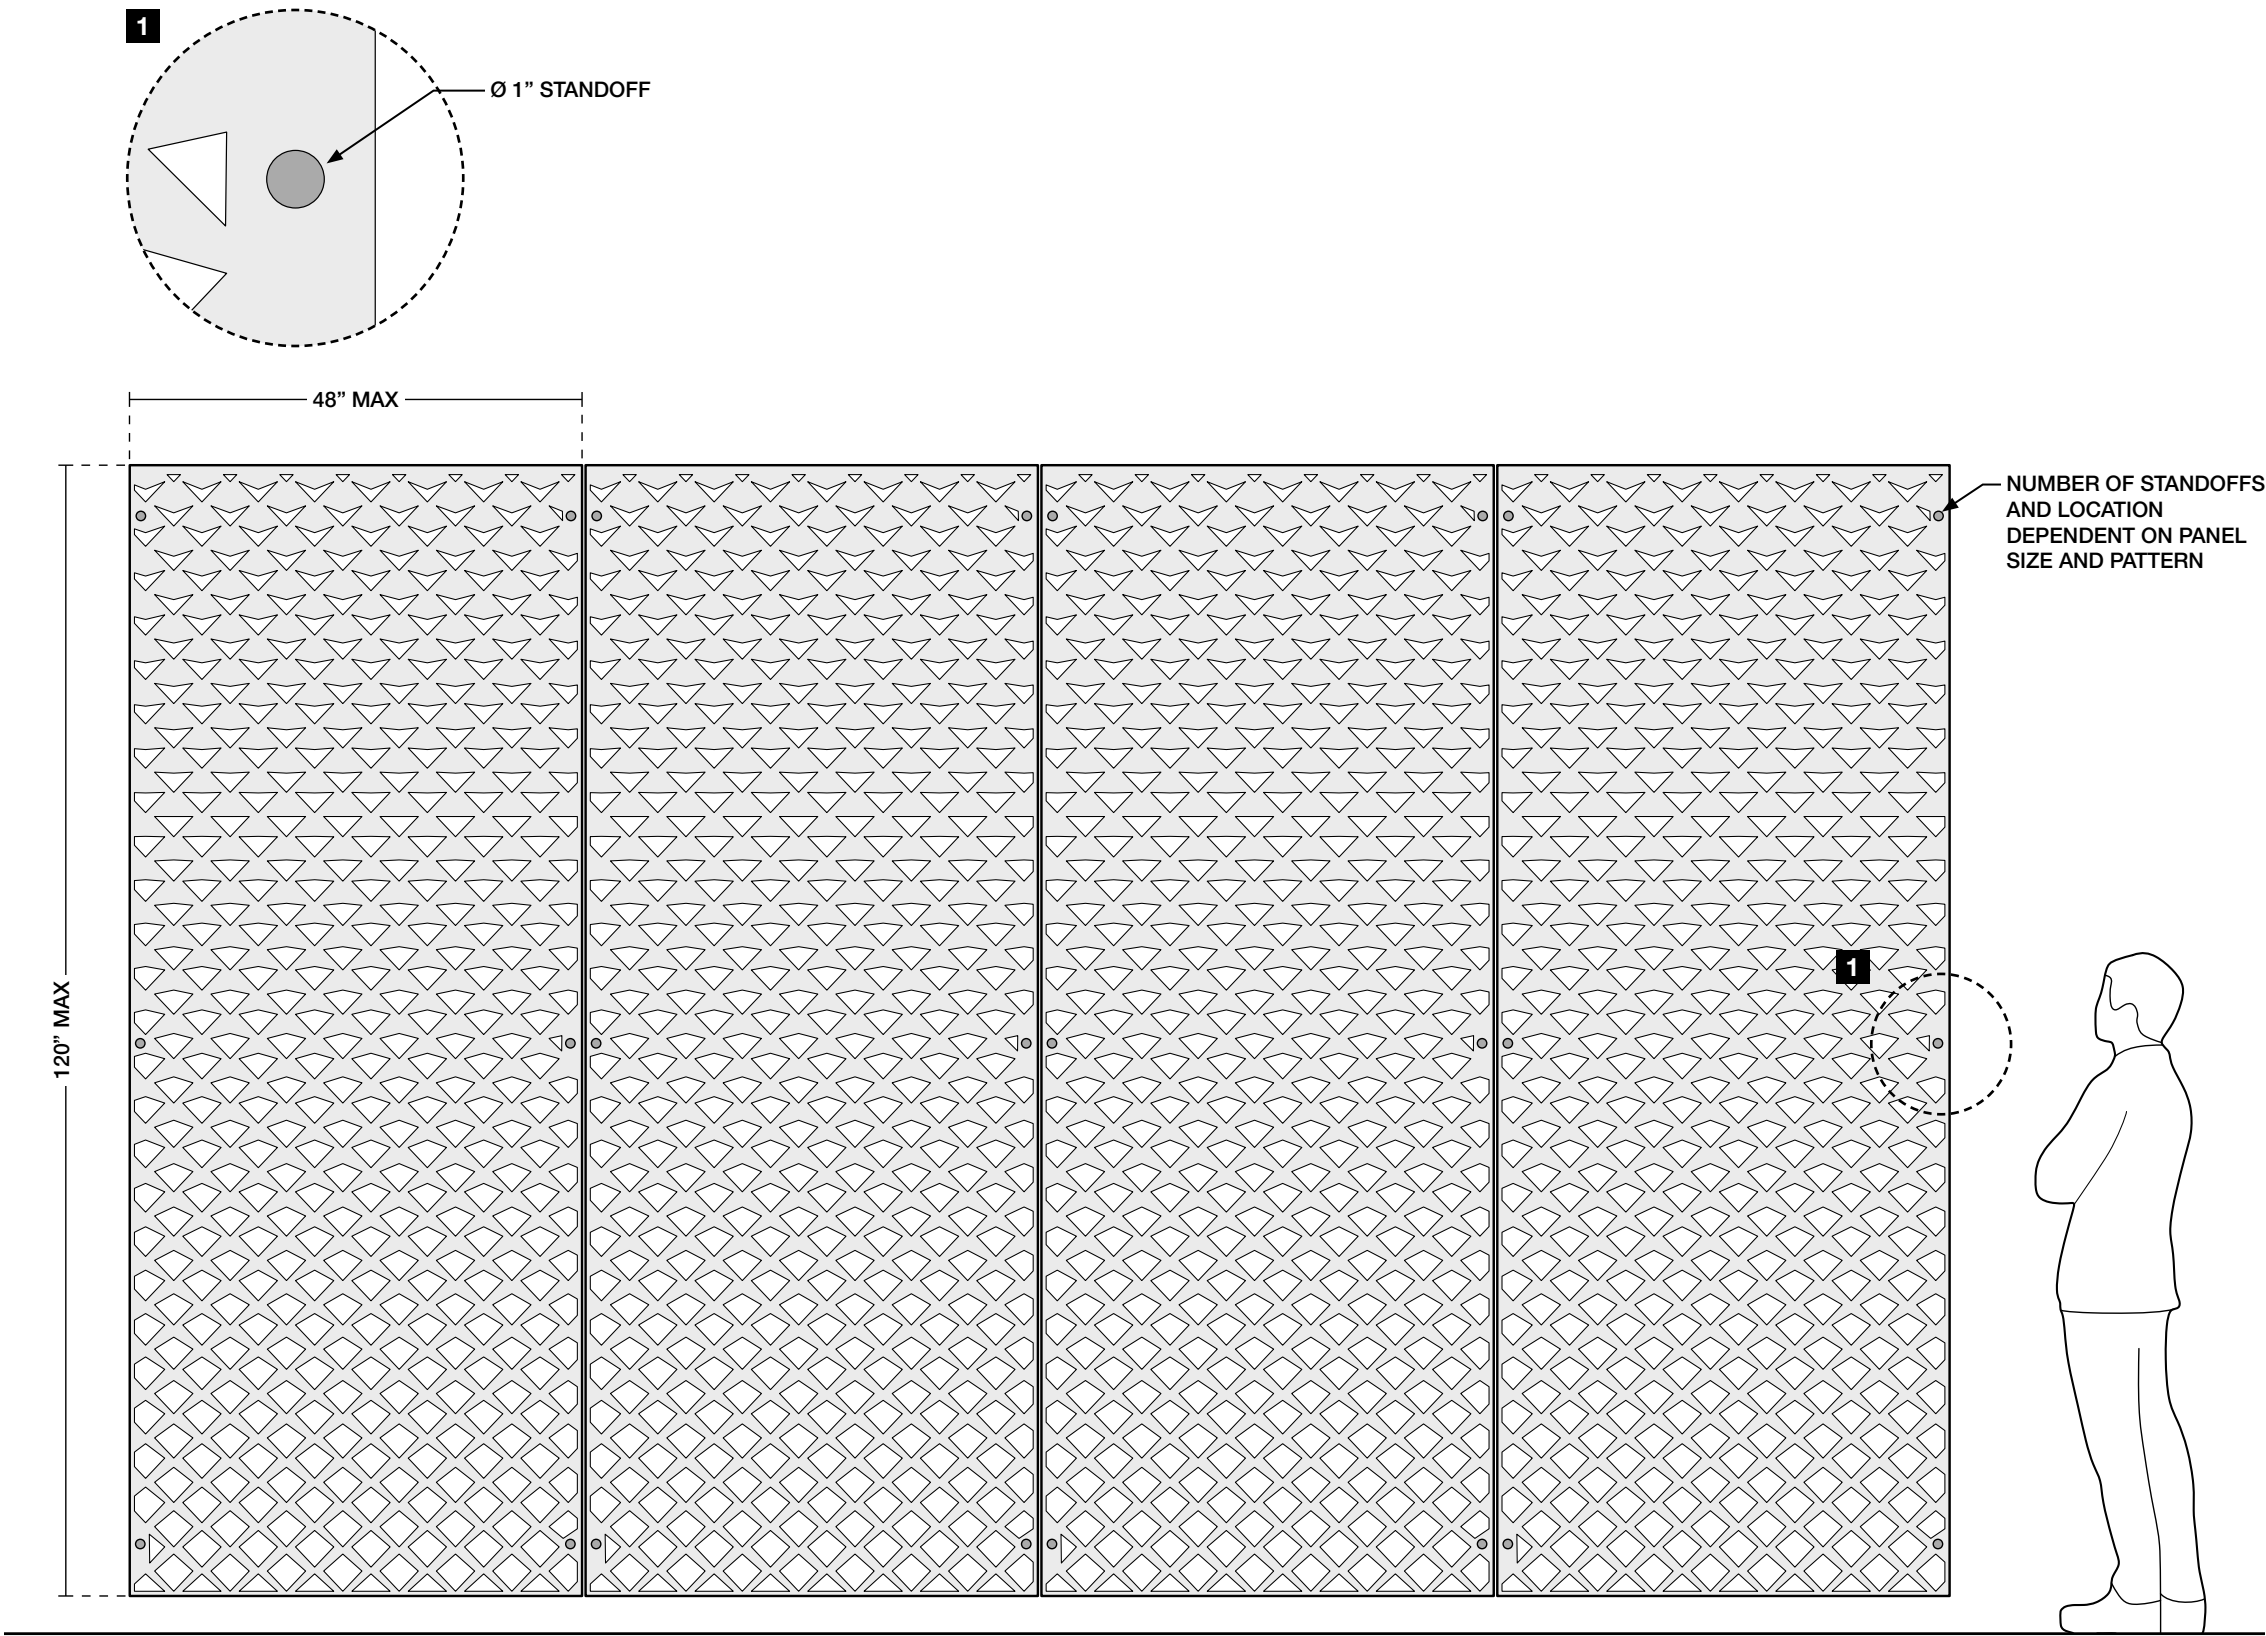

Connections - Standoff

**Description** Turf's Standoff connection anchors Static panels to the wall.

**Fast Track Unavailable** This connection type requires special consideration based on panel size and pattern. Turf's design team can help coordinate your layout.

**Example Shown** The layout shown uses Static pattern F4, all pattern types are available with the Standoff connection.

# Side Mount - Installation Guide Pt. 1

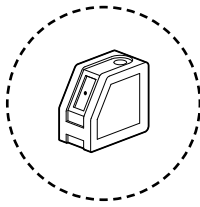

The guide enclosed covers a Side Mount connection installation. Follow the steps on the following pages to secure panels to the ceiling and floor.

Please follow best practices based upon the specific materials and conditions of your project. The guide is representation and additional steps may need to be taken by the installer for a proper installation.

## Tools Required

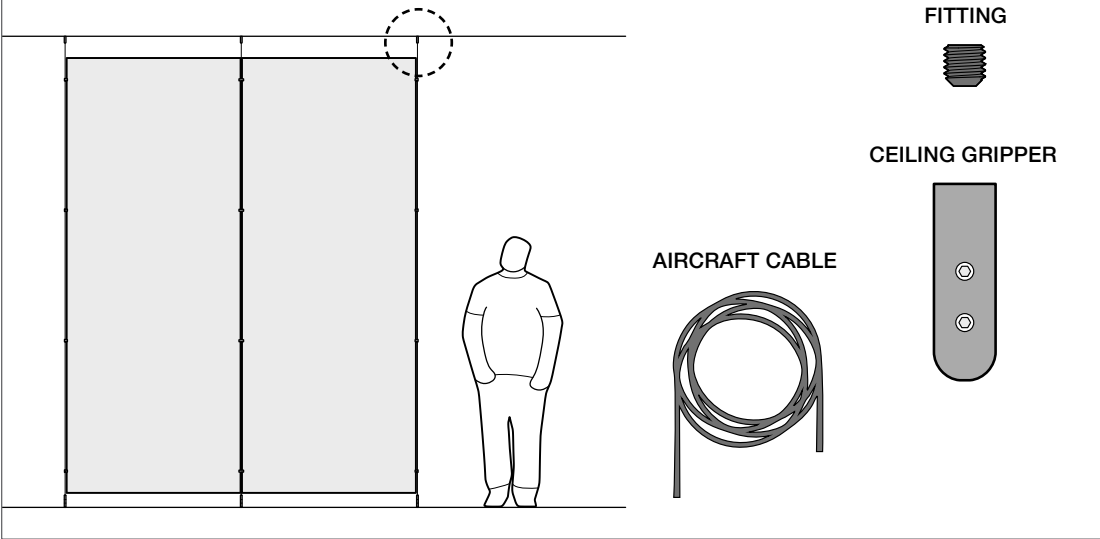

DRILL

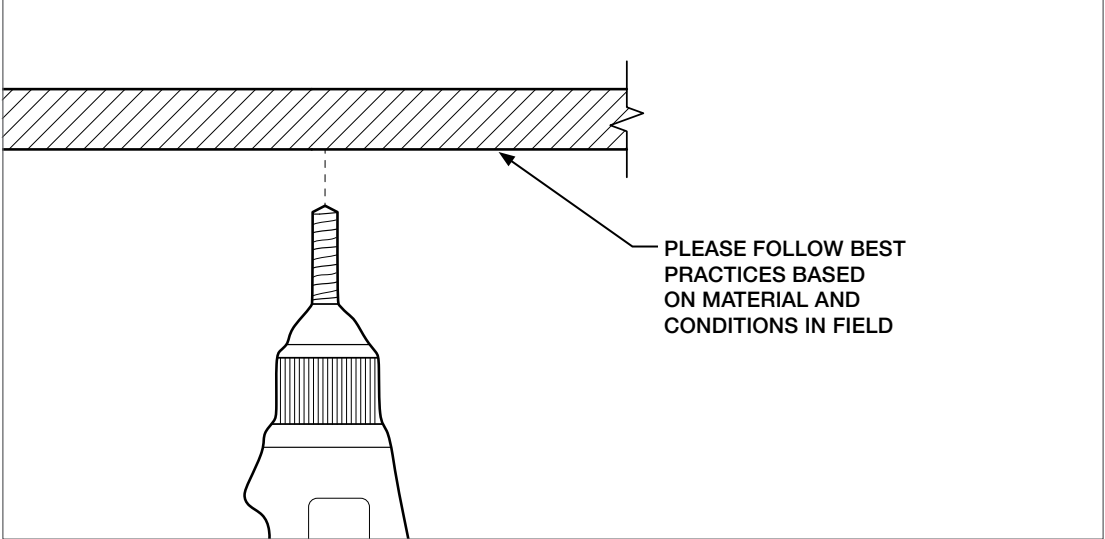

LASER LEVEL

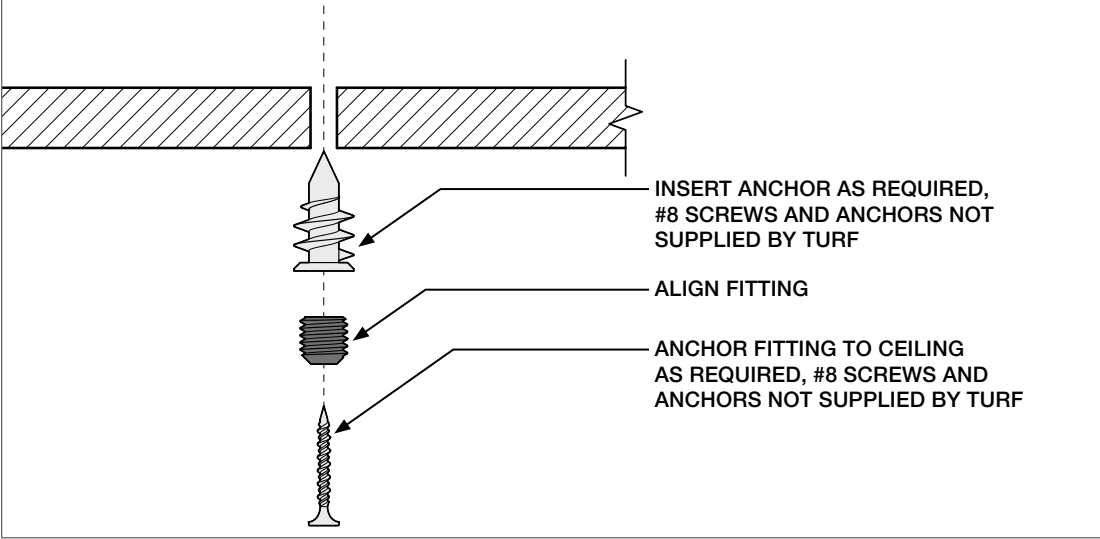

### 1 - ATTACH GRIPPER TO CEILING

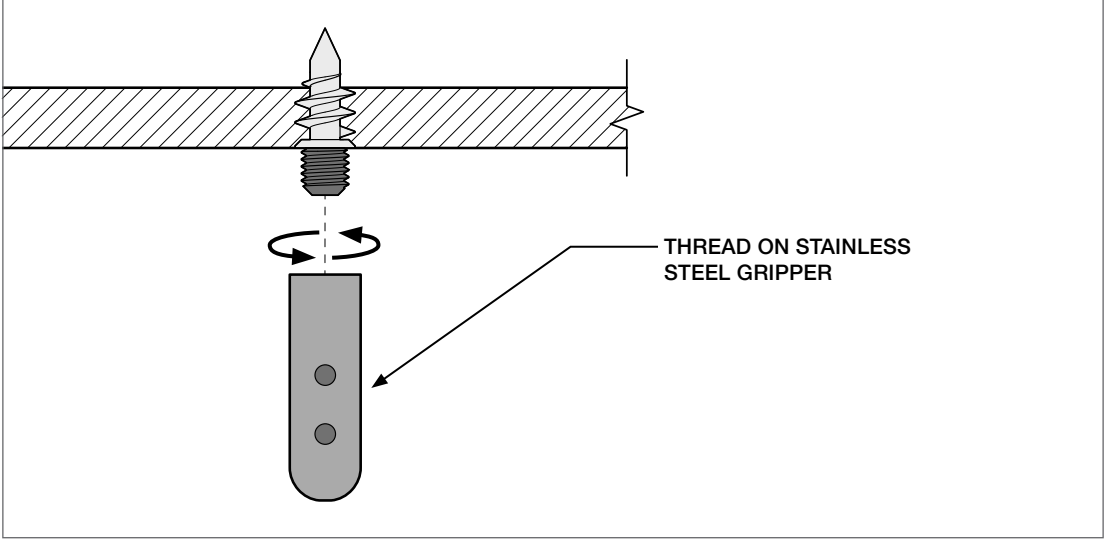

### 2 - DRILL PILOT HOLE INTO CEILING AS REQUIRED

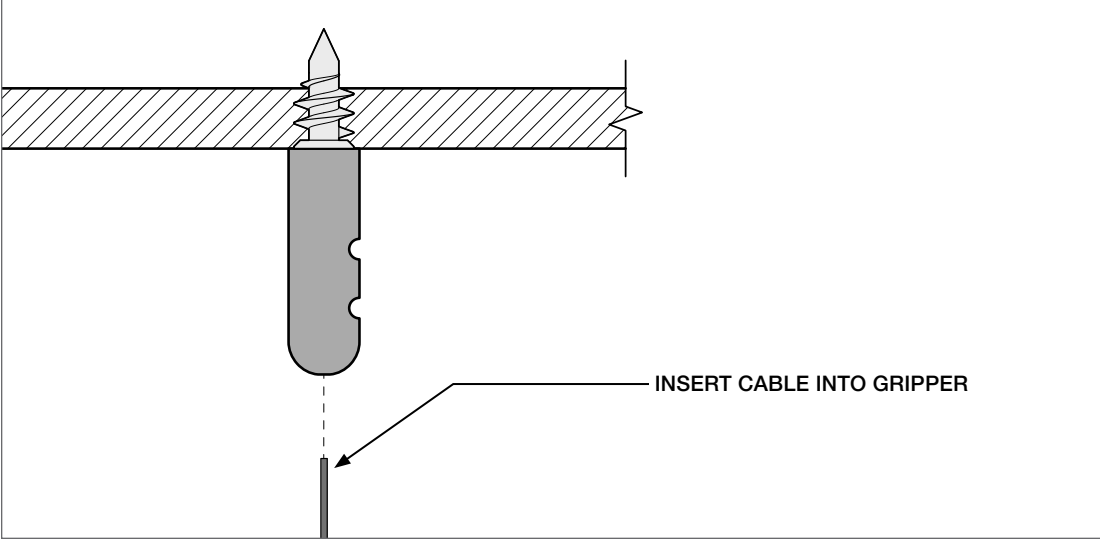

### 3 - ANCHOR FITTING TO CEILING

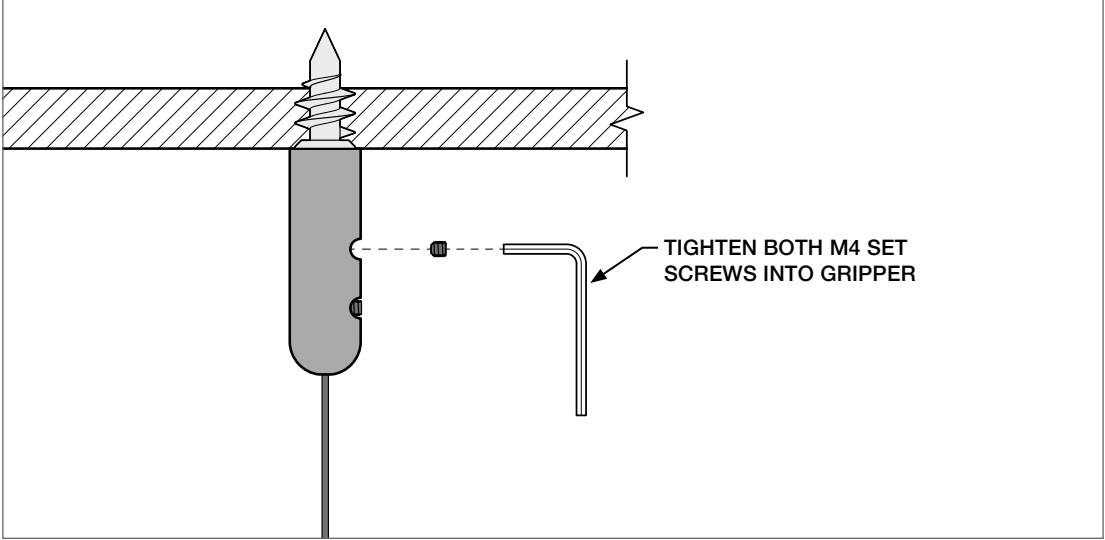

### 4 - THREAD GRIPPER TO CEILING

### 5 - INSERT AIRCRAFT CABLE INTO GRIPPER

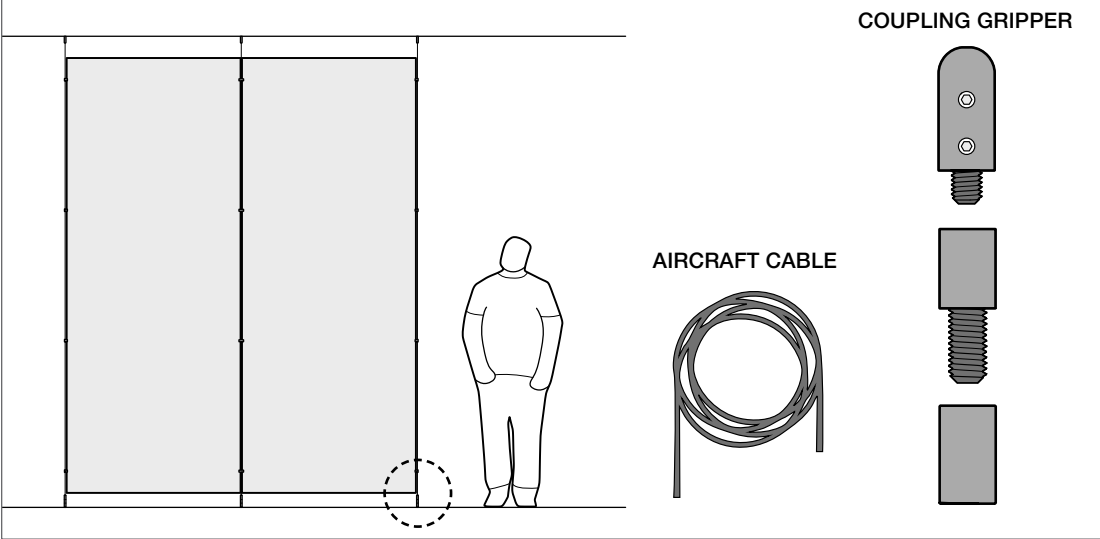

### 6 - INSERT SET SCREWS INTO GRIPPER

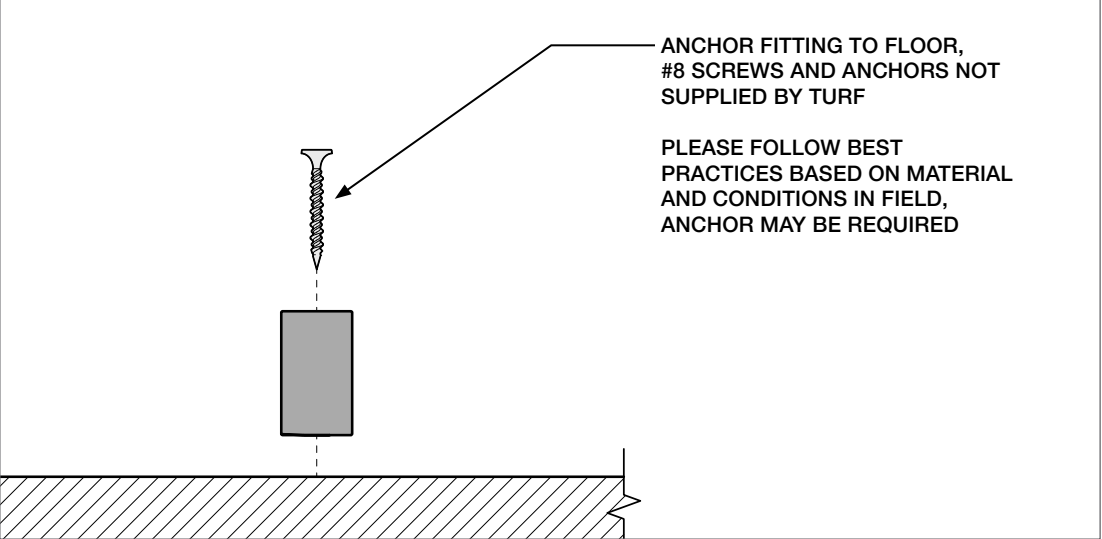

# Side Mount - Installation Guide Pt. 2

Please follow best practices based upon the specific materials and conditions of your project. The guide is representation and additional steps may need to be taken by the installer for a proper installation.

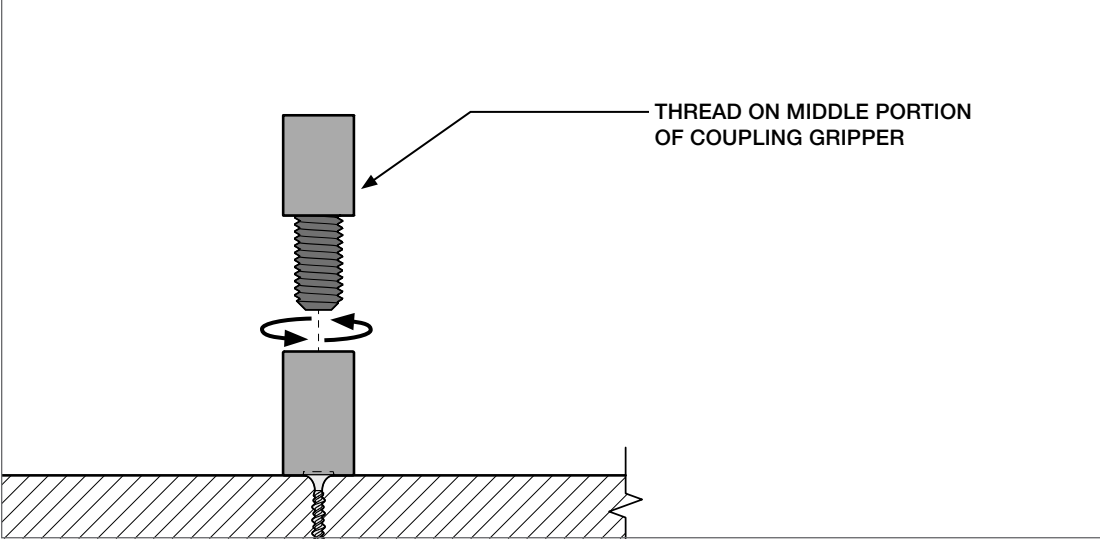

## 1 - ATTACH COUPLING GRIPPER TO FLOOR

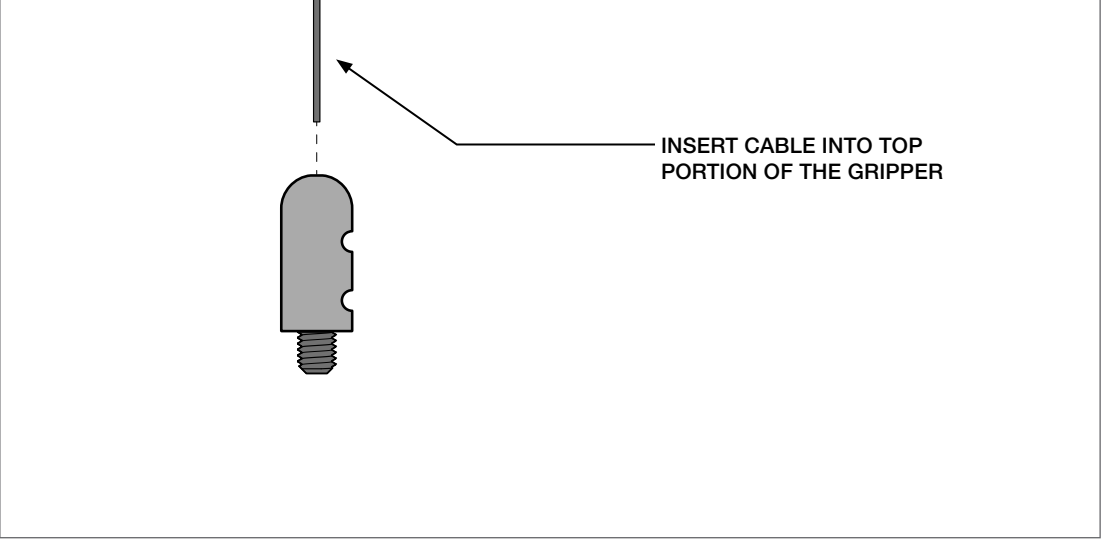

## 2 - ANCHOR FITTING TO FLOOR

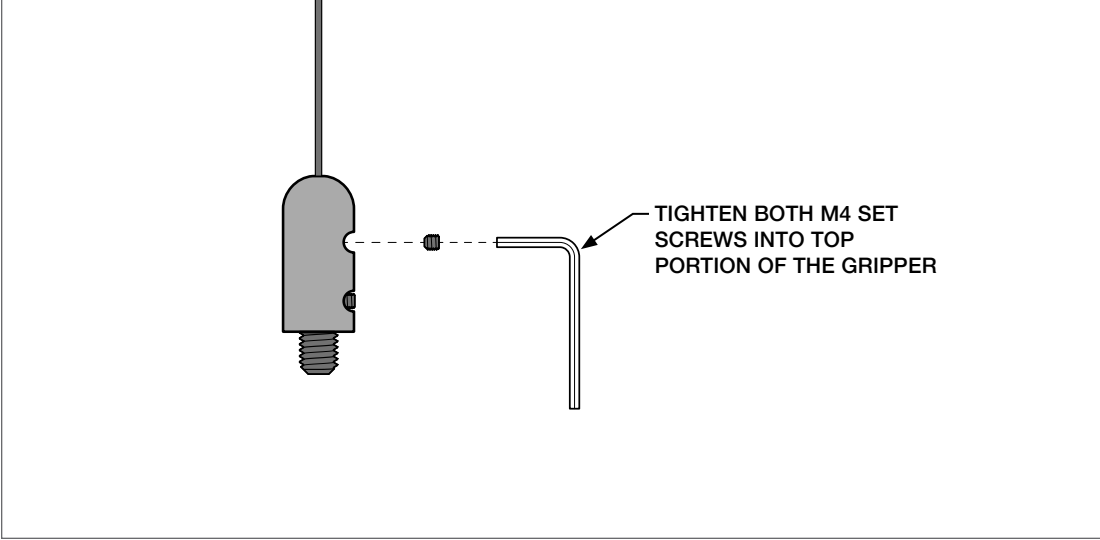

## 3 - THREAD COUPLING GRIPPER TOGETHER

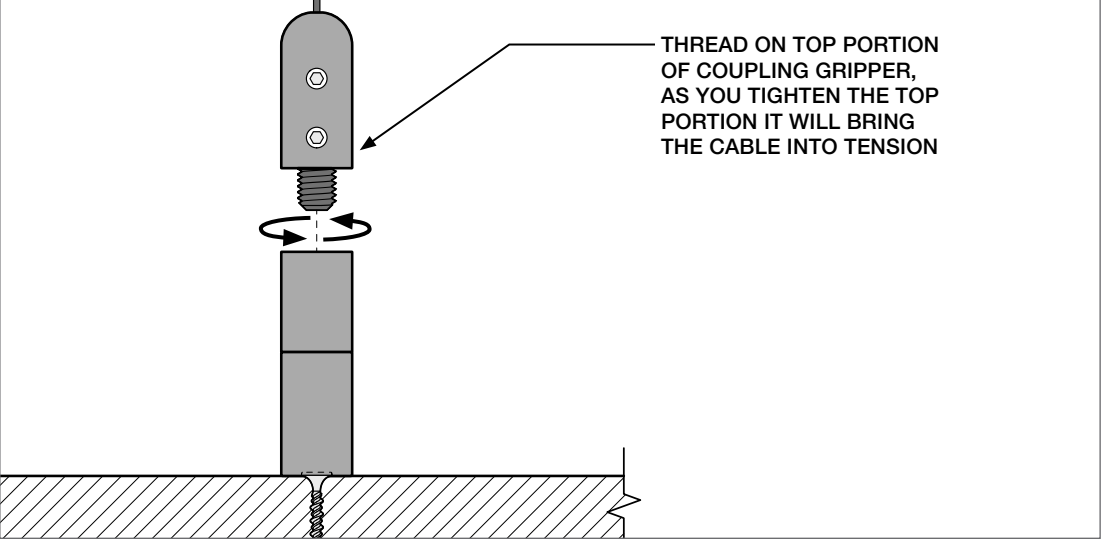

## 4 - INSERT AIRCRAFT CABLE INTO GRIPPER

## 5 - INSERT SET SCREWS INTO GRIPPER

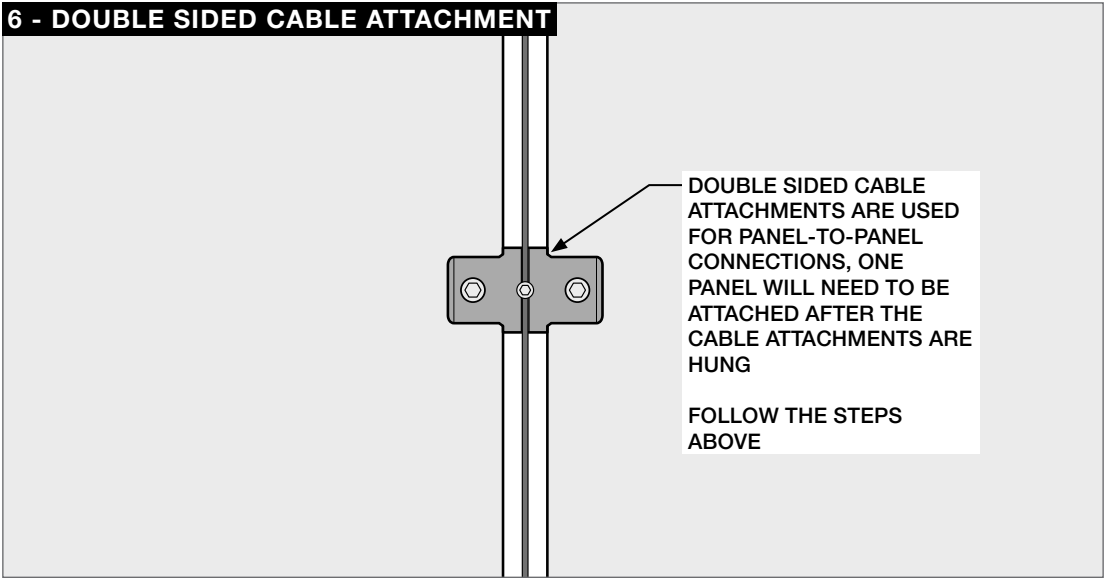

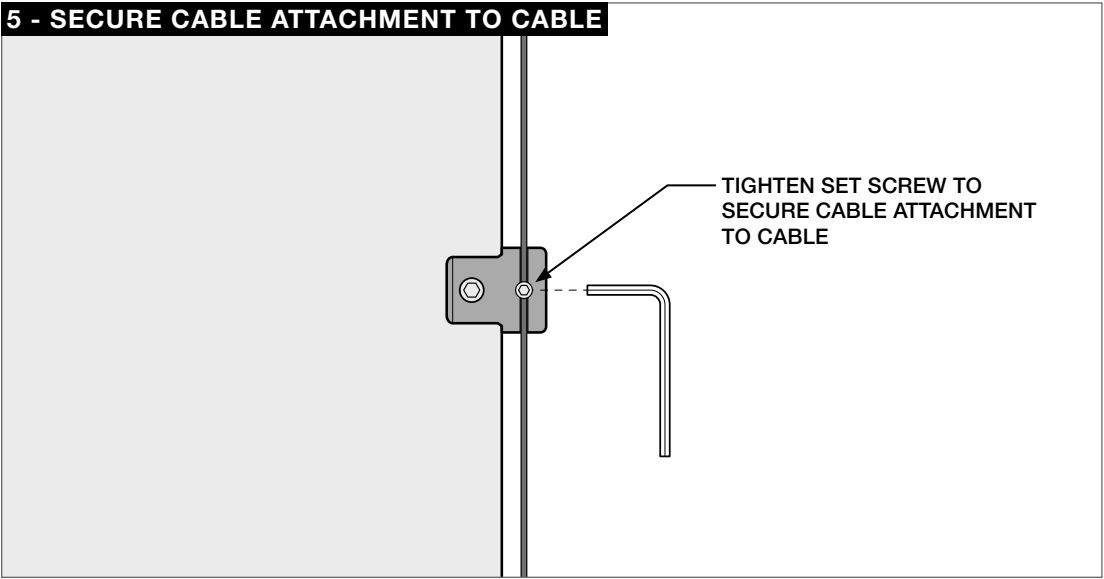

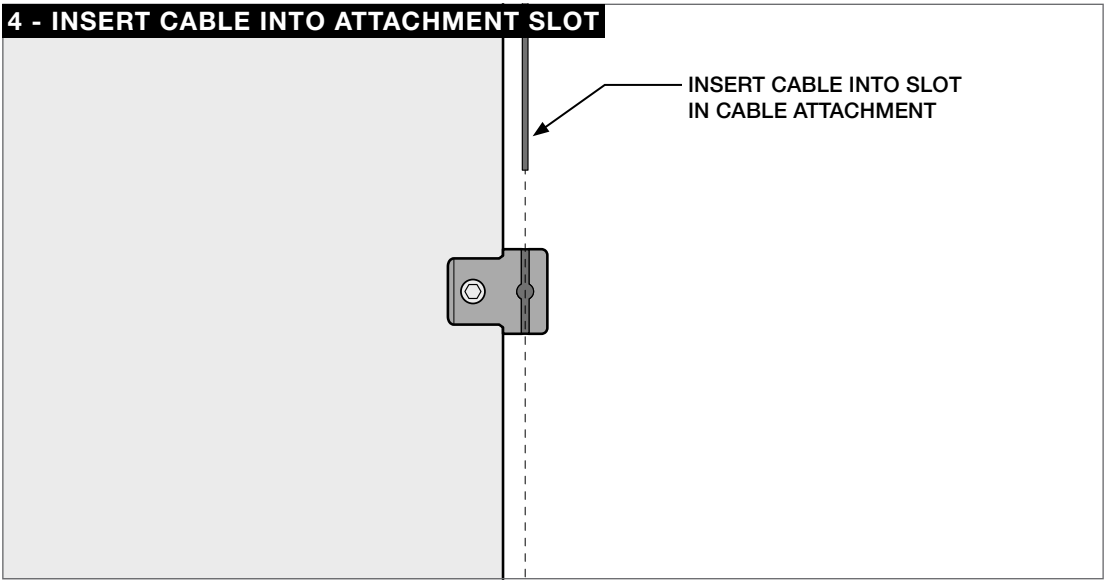

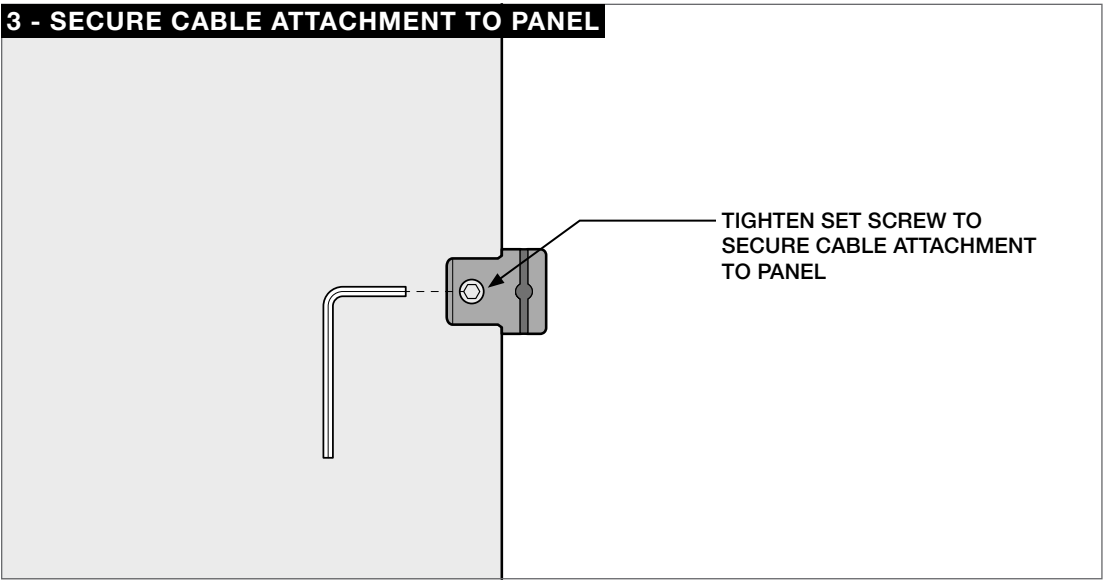

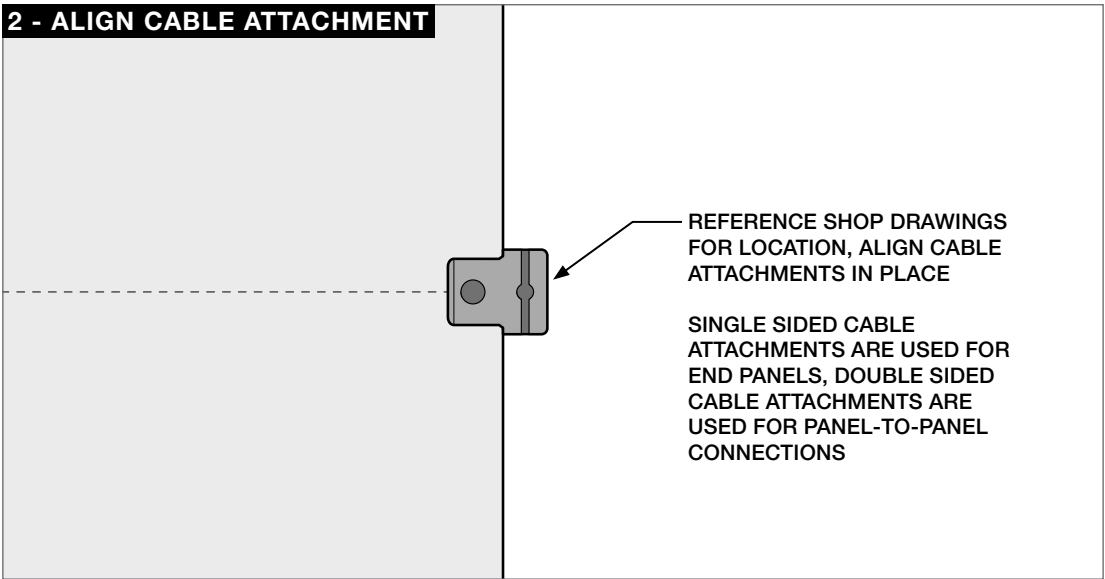

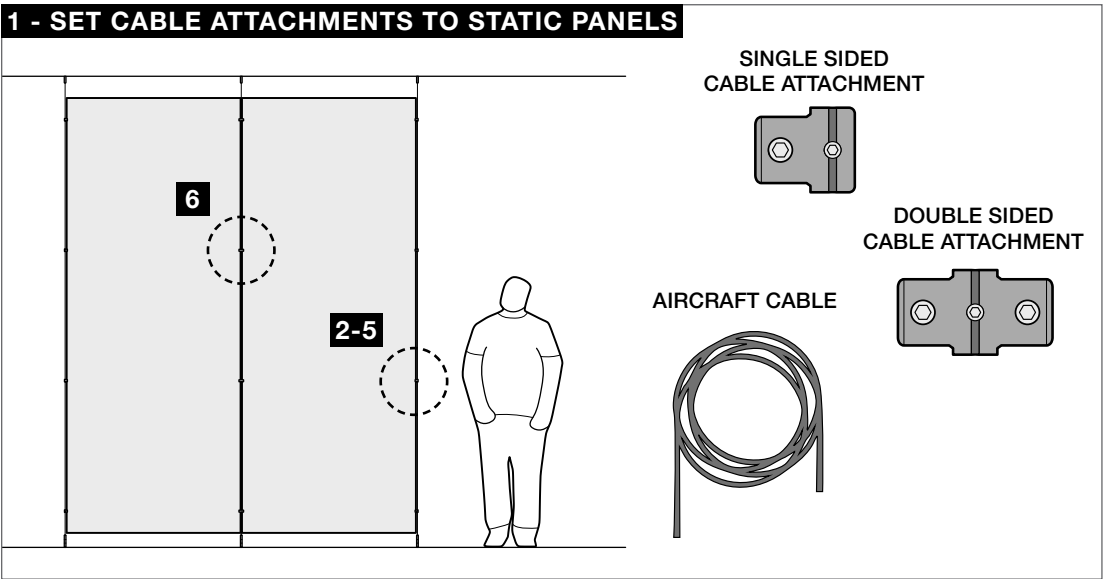

## 6 - THREAD COUPLING GRIPPER TOGETHER

# Side Mount - Installation Guide Pt. 3

Please follow best practices based upon the specific materials and conditions of your project. The guide is representation and additional steps may need to be taken by the installer for a proper installation.

9mm Colors

Introducing Hues, our new 9mm color palette designed for the senses.

The 9mm PET felt board is used as our primary construction material. Select one of our coordinating neutrals to blend in, or go for a contrasting element with one of our hues.

The process used to create PET felt often results in a heathered effect where multiple tones are present. Slight variations in color should be expected when using this sustainable material.

**Felt Thickness**  
9mm +/-0.5 mm

Monitors and printers vary.  
Please request a material sample to verify felt colors.
